Forwarded for compliance with paragraph 2 of 1st Ind.

for John E. Woolley
LEAVITT CORNING, JR.,
Lt. Colonel, G. S. C.,
A/C of S, A-2.

2nd. W/Ind.

415th. NIGHT FIGHTER SQUADRON, APO #374, U. S. Army, 30 January 1945.

TO: AC of S A-2 XII Tactical Air Command, APO 374, U. S. Army.

1. In compliance with paragraph 2 of 1st. Ind., the following extracts from the Sortie Reports of various pilots who have encountered the Night Phenomenon are submitted for your information.

Night of 14-15 December 1944 - "In vicinity of Erstein (V-9381) flying at 1000 ft. observed large red light at 2000 ft. going East at 18:40 hrs. Travelling at approximately 200 MPH"

Night of 16-17 December 1944 - "20 miles North of Breisach (W-0173) at 800 ft. observed 5 or 6 flashing red and green lights in "T" shape. Thought they were flak. About 10 minutes later saw the same lights much closer and behind me. We turned port and Starboard and the lights followed. They closed in to about 8 O'clock and 1000 ft. and remained in that position for several minutes and then disappeared."

Night of 22-23 December 1944 - "Patrolling at Angels 10 from Sarrebourg to Strasbourg North and South of highway. At 06:00 hrs. saw two lights coming towards A/C from the ground. Upon reaching altitude of plane, they leveled off and stayed on my tail for approximately 2 minutes. Lights appeared to be a large orange glow. After staying with A/C for approximately 2 minutes, they would peel off and turn away, fly along level for a few minutes and then go out. They appeared to be under perfect control at all times. Lights were seen somewhere in vicinity of Megenau."
