

SUBJ: Observation of an Object in the Atmosphere

- (7) Maneuverability - Appeared to be in a shallow dive.
- (8) Altitude - Approximately 18,000 feet.
- (9) Sound - None
- (10) Exhaust trail or not - Yes

g. Remarks: Object was sighted on the first leg of a flight from Edmonton, Alberta, Canada, to Kittigazuit, N. W. T. Canada while flying at 7,000 ft. MSL on top of an overcast. The object was momentarily sighted above a deck of broken status clouds. It seemed to be a bright flaming orange object and illuminated the sky momentarily behind it.
