

RESTRICTED

Patrolman D. W. Ellis (also a private pilot) perceived three flat round discs which flew at terrific speed in straight line formation, the last disc fluttering very rapidly in a side-way arc. He saw no evidence of any motivating powers and there were no vapor or smoke trails. No sound could be heard. Ground temperature was 82°F with little or no cloud formation.

NOTE: Corroborated account. Witnessed by Patrolman W. A. Lissy (also a private pilot) Both very dependable & trustworthy officers
