

RESTRICTED

Witness thought she heard plane which appeared to be flying low and making an unusual amount of noise. Could not locate the plane but did see an object oblong in shape and long and narrow which had the appearance of a silver streak. It was clearly outlined and moving slowly and steadily in a southwesterly direction parallel to the ground and without changing direction. Altitude and size were not estimated.

Note: See Incident #112a in which the plane was perceived flying low.
