

JULY 11, 1954

Have you seen one of the mysterious "Saucers"  
What did it look like?  
Do you think these saucers, celestial machines,  
have the capabilities of a better way?  
Do you believe it means that a new and revealing history

advance is coming?

Will it make your life brighter, happier, more

useful?

We believe one of those events is on its

way to you. Then the secret will be out.

The General and Assistant Committee  
of the Secretary, International and  
the Federal Government.
