

Office Memorandum • UNITED STATES GOVERNMENT

TO : Director, FBI
 FROM : SAC, Norfolk
 SUBJECT: FLYING DISCS

DATE: August 8, 1947

Re Bureau Bulletin No. 42, dated July 30, 1947, Series 1947, wherein information is set forth pertaining to flying discs.

There is enclosed with this letter a newspaper clipping from the "Norfolk Ledger-Dispatch", dated July 9, 1947. The photograph appearing on this clipping is alleged to represent a flying disc which was observed by BILLY TURRENTINE, a Norfolk school boy, who was successful in photographing the object with his small camera.

BILLY was interviewed on August 8, 1947 by Special Agent (A) THOMAS J. CONNOR, at which time BILLY informed that the original negative was given by him to a Mr. BROWN of the Photo Craftsman Service, who in turn furnished the negative to the International News Service. BILLY advised that he has an agreement with Mr. BROWN whereby the latter will share equally in any profits derived from the use of the negative by commercial firms or newspapers. As of August 8, 1947 BILLY has not received any remuneration for the use of this negative.

He informed that he was sitting on the front porch of his apartment which is located on the third floor at 410 West 14th Street, Norfolk, Virginia, around noontime on July 8, 1947. He had read numerous newspaper articles pertaining to flying discs and decided to sit on his front porch in the hopes of seeing one and attempting to photograph it. On July 8, 1947 BILLY observed a large, black object moving rapidly through space proceeding from the southwest to a northeast direction. He said the black object was followed by two smaller objects which also proceeded in the same direction. BILLY explained that the objects were moving at a very fast speed which appeared to him to be much faster than the speed of an airplane, and further, that the objects appeared to be extremely high. He said that they were much higher than the average plane travels in the City of Norfolk and appeared to be above the clouds, and that a white mist followed each of the three objects. BILLY was unable to state what the black objects represented, but admitted that they could have been large balloons. He indicated that he has observed small, toy balloons flying through the air, but that definitely these were not the toy type balloons. He said that when he first observed the objects they were at such a great distance from him that it was not necessary that he raise his head in order to see them from his porch on the third floor of the apartment building. He immediately turned around to obtain
