Sir:

For the past twenty years the United States has been having an increase in the problem of the U.F.O. or "Flying Saucers" and nothing is being done about it, as it should be.

The Air Force has maintained that the sightings have been gas, light, weather, etc. but by talking to some of the people that have seen U.F.O.'s I'm wondering if the Air Force isn't lying.

I'm not the only one wondering this, for the people that I have talked to say that after the Michigan sightings and the others they would not report it to the Air Force if they did see a U.F.O..

Reports say that even F.B.I. Agents have seen U.F.O.'s and this has been denied by the Air Force.

The report recently about the police officer in Ohio or Penn. having serious family trouble as well as being ridiculed by people because of his sighting, along with a fellow police officer, of a U.F.O..

I see by this that the faith in our Air Force is beginning to wane and if this is so then we may be putting ourselves in the terrible position, as did Nazi Germany in the 1930's.

I wish to know if your agents have seen any U.F.O.'s

Sincerely,  
Paul L. Wright.
