Washington, D.C.

And through the courtesy of Gen. Patrick Hurley,  
a letter from Sec. of War Robert Patterson, War Dep't, Washington, D.C.

All were highly interested, appreciative, with the  
general trend of contacts being, "This is fine. Go right ahead."

My point in writing you is to raise some money to  
proceed with. No budgets seemed to allow for the unexpected, elusive  
"discs."

Sen. Carl Hatch, D-N.M., U.S. Senate, Washington, D.C.  
has been contacted by mail for an appropriation, but even if this  
only requires one more week, it may be too late.

You may contact any of the above listed persons to  
verify my contacts (excuse repetition word contact) during the past  
four months. In other words, I began reporting directly to  
Dr. Norris Bradbury, Scientific Head of Los Alamos, and Colonel Gee,  
et al, some time ago that this type aerial "disc" was a reality.
