SLIP(S) OF 2040

DATE 9/1/77

EX-119

Date: October 19, 1949
To: Director
Office of Special Investigations
The Inspector General
Department of the Air Force
The Pentagon
Washington, D. C.

From: John Edgar Hoover - Director, Federal Bureau of Investigation

Subject: FLYING DISCS

There is set forth the following unverified information relating to the captioned matter which was furnished to this Bureau by a confidential source whose reliability is unknown and who has requested that his identity not be revealed.

"I was flying from ... to Parkersburg, W. Va. this afternoon (September 25, 1949) and about four miles airline, southwest of Parkersburg, I suddenly noticed a bright yellow object coming directly towards me. It came at me with such speed, added to my 100 m.p.h. forward speed that it startled me and had passed by in a matter of a couple of seconds, but it passed by about 100 feet under my ship and about 50 feet to my right, and because of the dark green background of the forests below I was able to get a very clear outline of the object, and what I believe is a very accurate description.

"Color - bright canary yellow
"Length - about 15 to 18 inches
"Diameter - about 4" in the largest part

"It resembled a rocket, in fact was about the same shape and proportions as the fuselage of a Lockheed Air Force X-90
