

"No wings but vertical and horizontal fins on rear 1/3 of the rocket.

"No visible means of propulsion such as propeller, vapor trail, smoke or exhaust.

"The front of the rocket was very sharp with a needle nose, the needle looked about 6" long and was the size of a lead pencil.

"The rear end was blunt similar to the rear end of a jet fuselage.

"I was flying my ship ... and was traveling about 100 m.p.h. at the time.

"I was at 3,450 ft. above sea level at the time.

"I was flying a compass course of 60 degrees, and the rocket was traveling almost west at 240 degrees.

"It happened about 2:45 P.M. on the above date.

"The visibility was exceptionally good, about 30 miles.

"The yellow object looked very sharp and clearly outlined because of the dark green background.

"If you will refer to the Huntington sectional aerial map this object was sighted over a very small town named Lubeck, which is about 4 miles direct west of South Parkersburg.

"It appeared to have spent its force and seemed to be dropping slightly as it passed by, or had been fired or launched from a higher altitude than the altitude I was flying."
