(THIS IS REHAS OSI 8 DTD 14 JAN 50. CATEGORY BAKER MESSAGE).

Rudy Fick says Flying saucers from Venus came to earth by accident. Rudy Fick, well known Kansas City auto dealer stopped in Denver 2 weeks ago while returning from Ogden, Utah. At that time he called on the manager of Ford Agency. Their conversation was interrupted by some engineers arriving for a meeting; one of whom was a man named Coulter. Coulter revealed some startling information. He (Coulter) stated he "Crashed the Gate" at a radar station near New Mexico and Arizona borders, and while there he saw 2 of the highly secret "Flying Saucers." Spot report details---the information contained herein was furnished from article which appeared in the Wyandotte Echo newspaper, Kansas City, Kansas, 6 January 1950. Of the two Flying saucers one was badly damaged and the other almost perfectly intact. They consisted of 2 parts, a cockpit or cabin about 6 feet in diameter. A ring 18 feet across and 2 feet thick surrounded the cabin. The cabin was constructed of metal resembling aluminum, but the actual make of the metal has defied analysis. Coulter had a piece of the metal in his possession and gave it to the Ford man to send to the Dearborne plant for analysis. This man (Coulter) showed the group, including Fick, a clock or automatic calendar which was taken from one of the Flying Saucers. This clock or automatic calendar consisted of 2 pieces of metal together with some unusual type of metal. On the face of 1 or 2 pieces of this metal there appeared an indentation which rotated around the disk completing a cycle each 28 days. According to the information given Coulter around 50 of these flying saucers have been found in the United States in a period of 2 years. Of these, 40 are in the 7 US Research Bureau in Los Angeles. Each of the craft had a crew of 2. The bodies in the damaged ship were charred, but the other ship's occupants were in a perfect state of preservation, although dead.
