

It was all so plain & clear for the object was in the eastern sky & the sun just came from behind a cloud in the west at about sun down & shown upon it. I rushed to my east door to try to distinguish a plane motor or some sound of motor or a possible crash maybe a few blocks away. But I heard nothing so I again explained & report to the F. B. I. here. I could not judge the distance of the object.

Now my own radio has not been working for about 2 weeks, so that I've not recently caught all the news. But a friend of mine tells me that according to radio news, the saucers are again appearing. and are now disintegrating.

Now Mr. Hoover if this matter that I shall mention here is by chance out of your jurisdiction, then I pray that you either mail this to some one (the right one) or put it into the hands (directly) to some responsible Gov. Official whom you are sure will give the matter serious study and consideration.

When the two tornados hit Woodward Okla several years ago within a few days or a few weeks of each other. From that time on I have theorized that these "flying Saucers" are being sent from a Russian base located somewhere near the eastern edge of Siberia, Korea or Mongolia, but more likely some place in Siberia, and are radar controlled. That the first ones of about the year of the tornados came back to the base there, and that they served a tri-purpose.

no. 1. That the first ones contained instruments to photograph & simultaneously record distance altitude & temperature. Thus with data returning via the "saucers" the Russians may by this means have every foot of our U.S.R photographed and our vital areas spotted. No doubt the "saucers" are built round and like this view from the side would have only one edge  and a pin like a top thru the air with slots around the saucer  where I have placed the dots. Could be made to open automatically and scatter germs, chemicals ice & etc.

no 2. That they may be able to effect our weather currents that have caused our heavy storms and unusual sudden
