

thru the Buffalo office. The story is to long to write it down to-day
I feel jittery about this fellow Ubalsty as I think he is a very bad egg
and etc. He was friendly to me and told me to do the best I could and when
I get it done to let them know and my price will be paid pronto.

This keeps me on a footing with them and I stall them off all the time.

Well this is the saucer as I have it for you.
