

7 I am nervous over this and if this brings the dope he gave me - well if it ever got out I am a dead duck sure as hell but the U. S. A. first and myself well I don't amount to much any how. Ubalstky said another party will contact me if he don't in due time not any particular date. He said Russia is very well prepared for war and will make damn short work of Europe and England, Spain, France & India, Japan & Philippines, and he said it will be soon and when Russia starts it will make Hitters bly look like a lot of school kids he says he thinks Russia has 350 Atomic bombs. If you want any plainer drawings of them saucers - yes I can draw plainer lines of course but the Air Tech. engineers will dope it out - you see I am no good on electronic gadgets as required on this saucer but that is a good description of the drawings I saw.

In case you write to me, put same in plain envelope and address it to me at 336 Bird St. Yuba City, Calif. The jet I pictured is just the same as was on the drawings Ubalstky had. I would like to hear about this as this will give me an idea if this Ubalstky is trying to give me horse feathers - I think tho it is not any baloney - but maybe it is.
