Gentlemen:

It has come to my attention that one of the Departments of the F.B.I. is collecting information from eyewitnesses of the phenomenon commonly termed 'Flying Saucers' and with this in view I have the following incident to relate.

On July 19th at 10:30 I was looking over my farm facing west. The moon was fairly full and there was a low ceiling of light clouds. Much to my amazement I saw through the clouds a hazy object of light coming towards the farmhouse with incredible speed. It circled before reaching the farmhouse and continued to do so, neither the height or the orbit of which I could determine. I could not distinguish its shape, as it was above the clouds and I could only see a filter of light.

This was an entity in itself or within itself. It did not come from a beam either above or below. At times it seemed to retard its speed and then would circle in the opposite direction. After watching this spectacle for about ten minutes I felt in justice to myself that I should have corroboration so I called to my houseman who was in bed who came out in slippers and bathrobe and watched it with me for about ten minutes with mouth agape. I continued to watch it in all for about thirty-five minutes, from 10:30 p.m. to 11:05 p.m. when it disappeared in a westerly direction.

I am passing this along to you for what it is worth. If you are not interested throw it in the waste paper basket.

Yours very truly,
