(SAUCER)

DENVER--A CONSTRUCTION WORKER AT LOS ALAMOS, N.M., HAS REPORTED THAT A STRANGE "BLINKING OBJECT" SOARED OVER A HIGHLY RESTRICTED AREA OF THE BIG ATOMIC ENERGY CENTER.

LEE ROBINSON OF THE ARMEX CONSTRUCTION COMPANY SENT THE DENVER POST A COPY OF A MIMEOGRAPHED FORM WHICH HE USED TO REPORT THE OBJECT TO THE AEC.

THE FORMS ARE PREPARED BY THE AEC FOR "REPORTS OF UNIDENTIFIED AERIAL OBJECTS AT LOS ALAMOS."

THE ORIGINAL THREE-PAGE REPORT, ROBINSON SAID, WAS SUBMITTED TO THE ATOMIC ENERGY SECURITY SERVICE SEPT. 12., THE DAY ROBINSON AND EIGHT OTHER EMPLOYEES OF THE ARMEX COMPANY SAY THEY SAW THE OBJECT.

ROBINSON SAID HE AND THE OTHERS WERE EATING LUNCH WHEN THE UNIDENTIFIED OBJECT PASSED OVER. HE SAID IT "WAS NOT A BALLOON OR A CONVENTIONAL TYPE OF AIRCRAFT."

ROBINSON SAID THE OBJECT APPEARED TO BE AT AN ALTITUDE OF ABOUT 20,00 FEET. IT ALTERNATELY FLASHED BRIGHT AND BLACK AT INTERVALS OF TWO SECONDS, HE SAID, AND WAS VISIBLE FOR THREE MINUTES AND 40 SECONDS.

THE SPECIALLY MIMEOGRAPHED FORMS INDICATED THE AEC IS HIGHLY CONCERNED WITH UNIDENTIFIED AERIAL OBJECTS OVER THE PROJECT. THE FORMS CONTAIN SPACES FOR INFORMANTS TO REPORT ON LUMINOSITY OF OBJECT, APPARENT MEANS OF SUPPORT AND PROPULSION AND "ODOR" OF THE OBJECT.
