

STEWART stated that when the aircraft came to rest above his automobile, it appeared to be "at least fifty feet (50) in diameter, and wavered slightly." While in sight the aircraft gave off a sound similar to that of a vacuum cleaner. STEWART averred that the aircraft maintained its position above the automobile for approximately three (3) minutes and then turned on its edge, thereby presenting its flat surface to his vision, and appeared to roll across the sky at a terrific rate of speed, greater than that of a jet plane. STEWART estimated the horizon to the southwest of his vision, towards which the object was traveling, as approximately three and one-half (3½) miles from his position, and that the object as it disappeared across the horizon was approximately the dimension of a five (5) inch disk held at arm's length. He advised that when the object first appeared, it appeared to be at an angle to the horizon of fifty (50) degrees, and as he was proceeding north it appeared on the northeast horizon on the crest of a hill. He also advised that during the period the object was in his vision he noticed no sign of activity within it and discerned no odor from it.

STEWART advised that during the time of the above observation of the aircraft there was only one other automobile in the immediate vicinity. He described this to be a 1948 Pontiac convertible, yellow, with 1952 Maryland license plates, the first three (3) digits of which were six-zero-zero (600). He related that the car was apparently occupied by a man and a woman and that the man had dismounted his automobile and was looking at the aircraft, but that upon being hailed by STEWART, had returned to his automobile and driven off rapidly. It was Mr. STEWART's opinion that he did so upon seeing the aforementioned Thompson sub-machine gun. Mr. STEWART informed the writer that he was not addicted to or a casual indulger of any form of alcoholic beverages and was not under such influence at the time of the sighting. He further advised that he wore glasses only for purposes of reading and that the only obstruction to his observation of the above described aircraft was the windshield of his automobile when first sighted; however, when he emerged from the automobile he was able to observe the aircraft without any trouble.

STEWART contended that the above incident had a singular effect upon his automobile in that it killed the motor and apparently magnetized its wiring. He also stated that the above incident had resulted in the paint on his car cracking.

AGENT'S NOTE: An inspection of STEWART's automobile revealed that it had been recently painted.

It was ascertained from STEWART that his hobbies were the collection and handling of weapons, American History, and that his avocation was politics. He stated that he had been active in the political candidacy of a senatorial contestant of the State of Maryland and was currently leader of the political club supporting the above mentioned candidate in his ward. He advised that on the night of the
