EX-115
Dear Mr. Eekhout:

Your letter dated October 6, 1952, has been received.

You will perhaps recall being advised at the time of your visit to this Bureau that the matter discussed was not within the jurisdiction of the FBI. However, in view of your imminent departure from Washington the information was accepted for transmittal to the appropriate agency, which was to contact you if interested.

Full details were made available at that time to the Department of the Air Force for evaluation and consideration. In the absence of some arrangement between you and the Air Force, your further use of the pertinent facts is, of course, a matter for your own determination.

Sincerely yours,

John Edgar Hoover
Director

NOTE ON YELLOW:

Bulet to OSI, Air Force, dated 5-7-52 transmitted data furnished by Eekhout to the Bureau 5-5-52 concerning his ideas as to plans for a workable flying disc. Eekhout was informed that further contact with him, if any, would come from the interested Government agency rather than the Bureau. No mention was made of his keeping the facts secret pending a reply from the Bureau or the Air Force. (62-83894-273)
