

According to the article, among other statements of the guards, was the fact that between midnight and 2 o'clock rain fell in torrents and for a few moments there was complete darkness because the lights went off. A guard tried to ring the alarm which would set off the siren, and it did not work; he yelled to another guard but did not get an answer, and his voice sounded very "distant"; although he tried to warn his chiefs personally, he could not run or even walk fast (he had to walk slowly).

2°).--A little before the fall of Berlin, "the motors of autos and trucks stopped unexpectedly," without any apparent explanation; after one hour they succeeded in starting them again. During this occasion it was commented that "something rare occurred in the atmosphere."

3° - About three months ago I read in a local newspaper about the "flying saucers," with the reservation that perhaps they would be speculating about the flying saucers; however, it is undeniable that they were telling the truth. It stated that, according to the article from a news agency, an officer and his associate who were flying a plane saw a "flying saucer." They followed it, but it, as in previous cases, whirled about and could not be reached. However, the flying saucer flew very high and then it began a rapid descent; it stopped a few seconds on the officer's airplane, paralyzing the motors of the airplane, (according to statements of the aviators). Later the disk flew very high and was lost from view, and the airplane motors began working.

Any inference from the above statements -- according to my way of thinking, -- that these facts may appear to be imaginary, is dispelled by the statements of various witnesses on each occasion, and therefore they are "scientific" facts.

If on two occasions paralyzation of electricity occurred, as well as what we may call paralyzation of vital forces (in the case of the guards), and in said cases "the interference of one person," Dr. LINKE, is inferred, why could not Dr. LINKE also be connected with the other two cases (2 and 3)?

It may be that all this is not in any way related and that the flying saucers are nothing more than what has been given as a scientific explanation, but the "strange force," about which our ancestors have not spoken to us in history, we cannot deny.
