

When I arrived home I spent approx
one half hour calling C.D. & Air Force
Ground operations etc finally after
getting no answers I called the
Waxstam police who merely informed
me they didn't know what I should
do about it. It came as rather a
surprise to me, I thought that
there was supposed to be somebody
in lodent at all times. I do
not know to whom I should write &
in disparation am writing to you. I
do hope you will report this to the
proper authorities for me and I hope
you will suggest to the local C.D.
that they should have someone
or someone that a person could call
to report such findings. I would appreciate
very much a reply from you. May
I just add that I honestly don't know
what the unknown object was. I never
before saw anything like it. I would
be very happy to supply any other
information you would like.

Thanking you very much
Sincerely yours
Mrs. Robert H. Lawson
