Federal Bureau of Investigation
Washington, D. C.

Gentlemen:

A relative of mine living in Circleville, Ohio has advised me of the following account.

Two years ago a respected farmer living near Circleville saw a lighted object dancing around, flying around in the air near him late at night in a pasture or field, -- a flying saucer. In due time this came to have general knowledge in the community, and about one year ago the story appeared in the Circleville newspaper.

Since then he is presumed to have been consulted with representatives of the F.B.I., so it is said there, and only three weeks ago or so it is said the F.B.I. representatives came to consult with him again. This time they brought pictures to show the farmer of various types of these flying saucers or space ships that have been apprehended by the government from time to time, and the farmer was able to identify one of them as the type of thing he had seen two years ago.

The farmer was told, as the story goes, by your representatives, that the particular flying saucer he identified is the type that is known to have been flown down from the planet Mars, and that similar ships have been captured, and that your agency or the government hold captive one man at least in California who was taken from one of these things from Mars. This Martian it is understood is now being taught how to speak English -- in California -- and taught American customs. It is said that it is apparent that this Martian comes from a civilization much more advanced than our own civilization.... and that this account has general knowledge as reported here in that community.

I understand that the farmer is a Mr. Stevenson, that he is held in very high repute in the community, prosperous, conservative and of presumed sound mind.
