

I can only believe that the account is a lot of nonsense, insofar as the F.B.I. telling the farmer that the government has captured several "flying saucers", and that they are from Mars, and that a Martian is being held captive in California. It would be apparent to me that if the government did have such knowledge, they would not confide such information to the farmer, -- and moreover that it is too utterly fantastic to credit with recognition as true. The farmer no doubt saw a "flying saucer", a light reflection or other light phenomenon such as the government has said all such things really are, and not a space ship from Mars or anyother place in outer space.

I am writing to hopefully secure your advice, insofar as you can properly advise me publicly as a citizen, of what the truth is in this story. I should like to set my relative there straight. And I am curious personally to know what the real story is about this farmer - Mr. Stevenson of the Circleville, Ohio area.

Respectfully yours,

President
