

But I shall announce the names of my comrades only after I have received a contract pertaining to license or gratuities and after my arrival in the U. S. However, it must be added that I shall not lay out the money for the passage if some firm accepts me for the construction of the flying machines. But in addition to all that I need someone who lives over there and who knows the English language, and now I am asking you, my dear Mr. PIWETZ, whether you can function as my manager as they say in the U. S. A. Well, you know that the manager receives payment, and I believe that you will enjoy working with me later on inventions when I am over there. Incidentally I mention that I took a course as a chemist. (The "Do" - apparatuses, later called fog - or rocket-missiles, originated with me and also many other things.) I hope that you can decipher my hieroglyphic script. Such small writing is not in my line. So that you may see that I am not exaggerating, I declare upon oath that the invention, known by the name of "flying saucer," is my own, that I know the men who are building these machines in South America, and that I can construct the above-described machine myself and attain at least 2000 km.

/s/ A. DORNIG.

I hope that you will be interested in it. I am awaiting your communication very hopefully.

With friendly greetings,

Respectfully,

/s/ ADOLF DORNIG
