Several Disc Objects Reported Over Cincinnati; Little Men Leave Craft in Germany, Says Here

Mysterious aircraft . . . "orange-red colored, silent, disc-shaped and 60 feet in diameter," were reported hovering 300 feet over Cincinnati Monday.

This was the fifth report within a week of similar objects seen around the city, always traveling in sets of three.

A similar wave of flying saucer reports has cropped up in five other parts of the world, including Germany, Belgium, Egypt, Argetina, Lebanon and the French Cameroons.

LATEST DISCS cited here were Monday at 5 a. m. by WLW announcer Keith Wildeson.

He reported the incident to Leonard H. Stringfield, 7017 Britton Avenue, Madison Place, director of civilian research, interplanetary flying objects. He said the current reports "seem to indicate a pattern" in the flight of the saucers.

One of Stringfield's neighbors, John H.

Sundstrom, 7010 Britton Avenue, spotted a formation of three discs Sunday at 5 p. m.

STRINGFIELD SAID Cincinnati is supposed to be a megnetic fault line and that perhaps the saucers come here to recharge.

In Muenster, Germany, 42-year-old movie projectionist Franz Hoge told the news agency DPA that he saw a "flying saucer" land in a field and peculiarly shaped creatures get out.

Hoge said he noticed a bright blue light and thought at first it came from a crashed airplane. On closer examination, he declared, he discovered a "cigar-shaped" craft hovering about six feet above the ground and giving off a brilliant blue radiance which nearly blinded him.

Then, the movie projectionist added, "he suddenly sighted four creatures about three and one-half feet in height. He said they had "thick-set bodies, oversized heads and delicate legs" and wore rubber-like clothing.
