

HOTEL *Gralynn*

MIAMI, FLORIDA

You have exactly the shaped eyes best suited to using this equipment - and your nose is shaped right too. Strangely enough, this matters! Even how eyes are spaced matters! Please try to get F. B. I. watches with large open-end eyes, widely spaced. Low bridge nose. Patience and calm nerves will be necessary too.

If you can get some quicksilver, bring that along too! Or tin.

I have a great deal of respect for the F. B. I. - I know it's terrific at finding the men they want. Will they do a switch -
