

This is the true story of our visitors
from outer space 5 or 6 years ago.

Many people wonder whether there are people
living in other worlds and many people
wish they knew for sure and some
people wish they could contact them.

Of course there are people living in another
world at least and probably many worlds.

My husband and three daughters and I
were living on our farm in Michigan
(in the sticks) Our oldest daughter was
working as a waitress about seven miles
from our place at The Country Club, that
summer vacation to help pay her college
expenses. I would go after her at midnight
then wait until she was ready to go home.
One night right soon after we left the high-
way we noticed this moving object a little
ahead of us along the side of the road.

It had tiny lights blinking on and off and
for just a second when the lights were off we
could see a dark moving object or shape is a
better word. There was absolutely no noise
whatever but I realized at once there were
human beings guiding it. I was three miles
