from the highway to our home which made six home driveways and three roads leading off of our road that we were traveling. At each place this outer plane would hover until they knew whether we were turning off or going on by, then they would swiftly glide on ahead of us, they staid just above the trees and a little ahead of us showing they were very intelligent people because had they staid behind us we would have speeded up and panicked. When we came to our place they hesitated until we turned in then they turned in over our garden beside the drive away. My daughter got out on her side and I got out on my side of the car. They were only a short distance ~~from~~ from us and down much lower. They were motionless and noiseless no motors at all. We stared at each other a long time, the tho't crossed my mind that they were probably taking our picture. I was completely speechless and awed. I felt the enormity of this thing that was happening. They came from endless time endless distance I felt that it was out of eternity itself. After some time they moved first on across the field down towards the river. Silently we went into the house
