INVESTIGATION DIVISION OF FBI
(1176-1000)

There appears to be no connection to our investigation of this
yearly review of captured records.

Indice we suggest the possibility of some type of viewing
copy being received concerning the case of flying records for the
purpose of determining whether information in addition to those
already issued to the state were received. The last information
dated 10/1/63 pointed out that copy being concerning information
regarding reports was not correct in that relation that receive in
the field in the field should be the facts immediately
the field. Our SAC letters dated in 1962 and in 1963 emphasized
the above-mentioned policy and it was not apparent that it
being further information to the field in 1963.

During the past few months we have received in connection
with flying records and during the past few months only
maintain was received, the facts of which are
related to the air force.

It does not appear that connection of our
flying records situation is a matter of
review of records and information. It will be
action with respect to any complaints
of course, in field, our policy.
