Dear Sir;

A research group that I am in is presently engaged in the study of the subject of UFOs (Unidentified Flying Objects), sometimes ludicrously termed "flying saucers".

Since our research takes us into every aspect of the subject, certain rumors and statements appear which we feel justify an examination to the fullest. One such statement is that, certain federal agencies, namely the FBI and CIA, have carried on private investigations of UFOs and/or that such agencies have, at times, worked in conjunction with the Air Force on its own study of the subject. Another such statement is that, agents of the intelligence bureaus (FBI and CIA) have, at times, pressured private citizens to keep quiet about the "mysterious objects" that they saw.

My group would be very glad if your agency would either confirm or deny the above statements regarding, of course, only the FBI and its agents (a similar letter to this will be written to the CIA). Your answer will be greatly appreciated.

Sincerely,
Ray Montello
