109 (18)

of the craft was produced more or less by King  
 at the station, but with the appearance  
 passing over the morning to which it is little  
 6000 and 10000 feet altitude. There had been  
 out with three dead bodies among others  
 The why now about three pm. The (18) was

River.  
 from the north bank of the stream  
 were approximately 22 miles east of Cumberland,  
 De and Fellingburg, Va. The point of observation  
 was by General Sir Arthur Wellesley Wellington  
 north of the great distance in the same sense  
 a dark area at the center, flying in a  
 greatly round, light-colored white in color, with  
 an aeriform object that appeared to be circular  
 at 9:45 AM (05T) Sunday July 20th, observed

one like this one.  
 under all types of conditions that demonstrate  
 opportunity to have all types of aircraft and  
 these respectively. During this time that the  
 assigned to the third, fourth and fifth the Air  
 Army Air there in grade of Staff Sergeant  
 I served four years - 1942 to 1946 - with the  
 former military.  
 to late and may had arms light on the flying  
 craft and light that was made the way through  
 Gen Dunlop, July 20th, observed an air-
