

the Water since the Conic-Global or Global-Conic form permits it.

The force that the said apparatus can develop can be compared only with THOUGHT since this has no barriers on the earth such as mountains and clouds in Space. This apparatus can be used for the Study of the Stars. This force is applied by means of stratospheric skyrockets placed at the top or sides of this apparatus using Nuclear-Atomic force.

I hope that my idea is Studied and approved by the said Commission and may serve for the Progress of the Universe instead of its DESTRUCTION, and for the good of all of us human beings who inhabit the Earth.

My description is IDEOGRAPHIC, but I believe that it will be a grain of sand which will help the SCIENTIFIC INVESTIGATION of that big Nation.

Cordially yours,
Miguel Angel Garcia Macias

Ideographic Inventor

"FOR UNIVERSAL PROGRESS"
