

UNIDENTIFIED FLYING OBJECT

on radiator or on trunk, at this first glance.

The only time I saw these two persons was when I had stopped, for possibly two seconds or so, to glance at the object. I don't recall noting any particular shape or possibly any hats or headgear. These persons appeared normal in shape--but possibly they were small adults or large kids.

Then paid attention to road while drove towards scene. Radioed to sheriff's office, "Socorro 2 to Socorro, possible 10-44 (accident); I'll be 10-6 (busy) out of the car checking the car down in the arroyo."

Stopped car, was still talking on radio, started to get out, mike fell down, reached back to put up mike, then replaced radio mike in slot, got out of car and turned to go down to where knew the object (car) was.

As my mike fell, I got out of car, at scene area, I heard about two or three loud "thumps," like someone possibly hammering or shutting a door or doors hard. These "thumps" were possibly a second or less apart. This was just before the roar. The persons were not seen when I got up to the scene area.
