

KOMPSAT	Korea Multi-Purpose Satellite
LAGEOS	Laser Geodynamic Satellite
LANDSAT	Earth Resources Satellite
LBRV	Large Ballistic Reentry Vehicle (See ABRV)
LE	Launch Emplacement
LF	Launch Facility
LLL	Lawrence Livermore Laboratory
LLV-1	Lockheed Launch Vehicle 1. (Became Lockheed Martin Launch Vehicle, and in Sept 97 was renamed Athena.)
LM	Lockheed Martin (Corporation)
MACSAT	Multiple Access Communications Satellite
MAGSAT	Magnetic Field Measurement Satellite
MaST	Maneuvering Systems Technology
MDA	McDonnell Douglas Aerospace
MINT	Miniaturized Instrumented Nose Tip
MOD	Modernized Minuteman (R&D, DASO) Operational tests are identified by the suffix "M" in the nickname
MS	Motorola Satcom
MSLS	Multi-Service Launch System
MSTI	Miniature Seeker Technology Integration
MSX	Midcourse Space Experiment
MUBLCOM	Multiple Path Beyond Line of Sight Communications
N/A	Not Applicable
NASA	National Aeronautics and Space Administration
NAVSTAR	Navigation Satellite (Formerly NDS)
NDS	Navigation Development Satellite
NOAA	National Oceanic and Atmospheric Administration
NTS	Navigation Technology Satellite
NTV	Nosetip Vehicle
OBLSS	Operational Base Launch Safety System
ORBCOMM (FM)	Orbital Communications (Flight Module)
ORT	Operational Readiness Test
OSC	Orbital Sciences Corporation
OSL	Ogden Special Launch
OSTF	Operational System Test Facility
OT	Operational Test (Now OT PHASE I) (Category III before 1 July 1963)
