Continuation of FD-302 of [REDACTED] [REDACTED] [REDACTED], On 09/[REDACTED]/2023, Page 2 of 2

[REDACTED] / [REDACTED] The object stayed the same size and kept the same light intensity during the time [REDACTED] observed it. He did not see the object as they were coming over the small bridge at the gate until they were going through the gate. [REDACTED] did not notice any interference with their vehicles .

[REDACTED] / [REDACTED] [REDACTED] was annoyed when she first saw the object because the air space had been restricted for the drone tests they were going to conduct. [REDACTED] [REDACTED] in the second vehicle tried to get [REDACTED] [REDACTED] to see the object but was unsuccessful.

[REDACTED] / [REDACTED] That night a storm came through and the TV went out in [REDACTED] hotel room. He was still freaked out and went downstairs to make sure all the TVs were out in the hotel and not just his. [REDACTED] had weird dreams and had trouble sleeping for the first two nights after he saw the object.
